# The Era of Good Feeling.

Tom Foley, boss of the lower Manhattan Democrats and mentor of AL SMITH'S political youth, has forgiven WILLIAM R. HEARST, his arch foe.

Mayor HYLAN, at Monday's meeting of the Board of Estimate, calmly discussed subways with Chairman McANENY of the Transit Commission and fervently cried: "Let's wipe out the past!"

Has the millennium come? Are we drifting into the Bay of Benevolence" After the incidents mentioned nothing in the line of good feeling is beyond hope.

The world series may see Babe RUTH patting an umpire on the head.

The First Woman Senator. It is a political oddity that the first woman member of the United States Senate should be from Georgia. For Georgia is one of the States where the men insisted that woman's place was in the home and not at the poils. Georgia was more bitter in its opposition to woman suffrage than most of its neighbor States. Georgia in 1919 rejected the Nineteenth Amendment to the Constitution by an overwhelming vote-39 to 10 in the State Senate and 132 to 24 in the House. Texas might vote for such a revolutionary thing, but Georgia never!

Of course it may be that Mrs. WILLIAM H. FELTON, who was appointed yesterday by Governor HARDWICK to fill the vacancy caused by Senator Tom Warson's death, will never participate in the business of the United States Senate. A Democratic primary in Georgia will nominate a candidate for the Senate this month and it probably will be somebody of the sterner sex. But Georgia, and to the country is the fact that his and tax measures that are not safe In honoring Mrs. Fetton, who was one cost of raising the crop he will sell and sound. of the patient strugglers for suffrage, this year was lower than his cost of has made what will be regarded as raising the crop sold last year. near the mouth of the Mississippi River to-night and moving clowly westward. Pressure was low over the Canadian maritime provinces, and low and failing over the western half of the country except California. The weather has remained fair during the last twenty-four hours, except in the Pacific States from central California northward and from the extreme lower Mississippi valley eastward to the south Atlantic coast, where showers have occurred.

The temperature was higher to-day in the northern plains States and it remained considerably above normal almost generally except in the Pacific States -Resolutions were passed at a meeting

The temperature was higher to-day in the northern plains States and it remained considerably above normal almost generally except in the Pacific States and the extreme south. At Pueblo. Colo., a maximum of 30 degrees, and at Moorhead, Minn., 32 degrees were registered, the highest ever recorded so late in the season at these stations.

The weather will I main fair in the States east of the Mississippi River during the next two days, except in the extreme South, where showery weather will continue.

The temperature will continue above normal almost generally during the next three days.
